**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2141

1. Claims 21-30 are presented for examination.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 22, 24-25, 27, and 29-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claims 22, 24-25, 27, and 29-30, "the computerized appliance" lacks positive antecedent basis. For purpose of examination, Examiner assumes applicant meant "the portable device".

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

or

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the

Art Unit: 2141

United States and was published under Article 21(2) of such treaty in the English language.

or

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 21-30 are rejected under 35 U.S.C. § 102(b) and 102(e) as being anticipated by Kikinis patent no. 5,727,159.

6. As to claim 21, Kikinis teaches the invention as claimed, including a system for enabling remote interworking with a communication center, comprising:

a communication center comprising a plurality of communication and computing devices (col. 4 lines 29-34; col. 5 lines 53-61; col. 8 lines 49-62. Corporate system comprises plurality of communication and computing devices);

a first network for coupling the plurality of communication and computing devices (col. 4 lines 29-34; col. 5 lines 53-61; col. 8 lines 49-62).

a proxy server executing a software suite and coupled to the first network (Proxy server 19, figure 2; col. 4 lines 15-34); and

characterized in that the proxy server is further coupled to a second network for managing communications between a portable device and the plurality of communication and computing devices in a form usable by each, wherein the portable device is enabled at least to participate in voice communication and to interoperate with at least one software application executing on a computing device coupled to the first network (col. 4 lines 15-64, col. 5 line 62 - col. 6 line 36, col. 7 line 57 - col. 8 line 4; col. 10 line 57 – col. 11 line 37).

7. As to claim 22, Kikinis teaches the portable device is one of a hand held computer, a personal digital assistant, a portable laptop computer, or a cellular telephone (col. 4 lines 35-64).

8. As to claim 23, Kikinis teaches the second two-way data link is one of a hardwired telephone connection, a wireless connection, or a data packet connection via the Internet (col. 5 lines 44-52).

9. As to claim 24, Kikinis teaches the proxy server and the portable device each execute an instance of a Nano-browser enabling Internet Protocol communication over the second two-way data link (col. 7 lines 1-12; col. 7 line 44 – col. 8 line 4).

10. As to claim 25, Kikinis teaches the proxy server is a first proxy server connect to a plurality of remote proxy servers, each at a separate remote call center, and the portable device connects to and operates software and accesses data at least one of the plurality of remote call centers (col. 4 lines 29-34, col. 5 lines 53-61, col. 8 lines 49-62).

11. Claims 26-30 have similar limitations as claims 21-25; therefore, they are rejected under the same rationale.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Le Luu whose telephone number is 571-272-3884. The examiner can normally be reached on 8:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on 571-272-3880. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
